AeroGo, Inc. Celebrates 50th Anniversary at Boeing Museum of Flight

SEATTLE, WA — January 9, 2017 — AeroGo, Inc. is celebrating its 50th anniversary at an invitation-only event January 14th at the Museum of Flight on Boeing Field. The Seattle-based company has provided premier air casters and innovative load moving solutions to companies worldwide since 1967. John Massenburg, President and CEO of the firm for the past 10 years stated, “It is fitting that our golden anniversary is celebrated at the Museum of Flight. Our air bearings have been instrumental in aerospace production since our inception.” Other industries that rely on AeroGo load moving solutions include manufacturing assembly, vehicle manufacturing, paper, oil & gas, biopharma, semi-conductor, maritime, and power generation and distribution. John continues, “It is truly humbling to be part of such a long-lived organization. We plan to continue to focus on our customer’s requirements, innovative engineering, quality manufactured products, and our employees. That’s what has built our worldwide reputation and has made our company who we are.”

Founded in 1967, AeroGo manufactures innovative load moving equipment, utilizing wheels and hovercraft technology that move heavy, awkward, or delicate loads. Companies large and small benefit from a worldwide dealer network, experienced product specialists, and skilled engineers. AeroGo works with our customers to find a load moving solution that is safe, efficient and cost-effective. Visit www.aerogo.com for more information.
