## **AeroGo Awarded ISO 9001:2015 Certification**

**SEATTLE, WA — September 11, 2017** — BSI has officially awarded AeroGo, Inc. the ISO 9001:2015 certification. The certification is the result of a rigorous audit process to verify that AeroGo, Inc. is following the quality management systems (QMS) and standards as identified by the International Organization for Standardization (ISO). The goal of the process is to ensure consistent and standardized processes across all of AeroGo’s manufacturing endeavors to assure customer satisfaction with AeroGo manufactured products. Rick Ruelle, Director of Customer Service and Compliance for AeroGo stated, “We have been working through the ISO 9001 requirements steadily in order to raise our already high standards. The ISO 9001:2015 award signals a significant enhancement of the effectiveness of processes in all areas and a milestone in the company’s focus on continuous improvement.”

ISO is the world’s largest developer of voluntary international standards. The benefits of international standards according to the ISO website is that ‘products and services are safe, reliable and of good quality. For business, they are strategic tools that reduce costs by minimizing waste and errors and increasing productivity.’ The ISO 9000 family of standards targets quality management to positively impact engineers, manufacturers, regulators, consumers, and end users. More information on ISO can be found at [www.iso.org](http://www.iso.org).

AeroGo manufactures innovative load moving equipment, utilizing wheels and hovercraft technology that move heavy, awkward, or delicate loads. Companies large and small benefit

from a worldwide dealer network, experienced product specialists, and skilled engineers. We work with our customers to find a load moving solution that is safe, efficient and cost-effective.
