**Portable Rigging Kit Moves Machinery and Components Up to 34,000 lbs.
Try it for yourself in booth 236467, North Bldg. Level 3**

SEATTLE, WA — August 10, 2022 — AeroGo Inc., offers a portable rigging kit to move machinery, material, and equipment up to 34,000 lbs. The compact and portable kit accommodates load configurations up to 40' long and 34,000 lbs., and stores easily in an included waterproof wheeled case. Load placement is safely performed over nearly all flat surfaces with the use of compressed air and lightweight overlays. Satisfied customers have commented that 'Rigging and setup are streamlined' and 'The system greatly reduces safety exposure.' The kit includes four load modules and accompanying air hoses along with a flat supply hose. The complete kit will be available for demonstration at the AeroGo booth #236467 in the North Building, Level 3 at the IMTS show.

For more information, call (206) 575-3344 or email info@aerogo.com. Equipment can be viewed online at <http://www.aerogo.com/products/portable-rigging-kit/>.

Founded in 1967, AeroGo manufactures innovative load moving equipment, utilizing wheels and hovercraft technology, to move heavy, awkward, or delicate loads. We work with our customers to find a load moving solution that is safe, efficient and cost-effective.
